

woollyWEB™

In today's tech-savvy world, having a great website is not just a nicety, it is a **prerequisite** to doing business. This is becoming **especially** true in the early childcare industry. The biggest problem however, is keeping your website updated and current **WITHOUT** hiring a programmer!

Announcing woollyWEB! WoollyWEB is a **fully customizable, content management website**, designed *specifically* for childcare

centers. After only 30 minutes of experience, center directors can **easily** maintain the schools website, keeping it up to date with the latest news, content, curriculum, forms, events and more! Plus woollyWEB **fully integrates** with our **komodoKAMS™** classroom web camera solution and our **polarPARENT™** web portal for a parent experience unlike any other in the childcare industry!

Standard Template #4

3 Simple Steps to Having Your Own Custom Website

1. Choose from one of our **6** standard web templates **OR** have us create a *premium* template just for you!
